Subject: Please Explain

Honorable Mr. Aziz Qader:

My elder brother met with you in person in Bangalore. Later, he briefed us all about the conversation he had with you, your brother A. M. Mohsin and your attorney, Mr. K. S. Mandana Gopal.

Needless to say, I was astonished to see a loosely written document from Mr. Gopal. Nonetheless, I am utterly surprised that you have been asking us to produce documents without even bothering to produce yours so we can reconfirm the investments made by my father and its proper returns on investment after the lapse of nine years.

The brutal fact is that for over 12 years, you had possession of my father's investments which were beneficial to you and your company one way or the other. No one in his right mind can deny this! And just as your brother Mohsin whom you keep wanting to satisfy, in turn, I have requested Rafiq Lodhia that I also must be satisfied about my father's investments with you and Frontline Constructions.

Lets be honest and explain why you are still holding on to a "dead man's money" and reluctant to part with it by demanding all sorts of documents without any explanation on your part? What do the laws of the Republic of India and the Islamic Sharia Law say about your actions?

More important question for all of you is: "Why you did not seek the written approval of each of the surviving members of Mr. Noor Mohammed Lodhia when dealing with his investmens after he passed away?" I ask again: What do the laws of the Republic of India and the Islamic Sharia Law say about your actions?

Obviously, you gave a commitment to a family friend Mr. Abdul Razak Teli while you met him in Karachi, Pakistan last year and also my father's close friends from the Tayub family who acted on our behalf to no avail. It is quite apparent the enthire thrust has been focused on your demanding all the vital documentation from our end without feeling the obligation to submit any official documents from your end.

Please have your attorney, Mr. K. S. Mandana Gopal, send an official letter to each of the surviving members of my beloved father, Mr. Noor Mohammed Lodhia, with details of all matters and the precise reasons for requiring the various documents. I prefer not to get another one of the same kind without any official letterhead. Please do this at the earliest.

I had authorized Rafiq Lodhia to act on my behalf and so did my brothers and sister. But you have chosen not to reply to him by a written acknowledgement. Now you leave me no choice but to act on my own to get all the necessary clarifications to my attention.

Sincerely yours,

Iqbal Lodhia
